14. TABLE OF FEES

	Standard Fee	Average customer spend	Average customer spend	Total (standard fee + average spend for two visits)
		Food 2 x visits	Beverage 2 x visits	
Application fee (first 2 years)	€ 395			
Renewal fee (every 2 years)	€ 345			

* This amount must cover two visits (one each year) for one person. In situations where the MTA sends two mystery guests instead of one the restaurant will be billed for the extra food and beverage following the visit. The average spend indicated above will be verified by the MTA to ensure that the amount reflects reality.

Notes when estimating the beverage spend

The beverage spend should always include coffee and a small bottle of water irrespective of the option you ticked above (question on wine). Where wine is selected 'by the bottle', the cost of a half bottle of Maltese wine should be included; where wine is not selected an alternative drink will be selected by the assessor during the visit.

Notes when estimating the food spend

The food spend should always include a minimum of two food courses (either a starter and main or a main and dessert). This will depend on what is the most likely scenario at your restaurant. For restaurants where customers usually go for a three-course meal the budget should cover the average cost of a starter, main and dessert.
